James Martin Driskill • 12 minutes ago • edited

What does it take to get the attention and receive someone to respond a response of responsibility onto a hate conspiracy that is showing highly effecting the standards of quality of care in the services and provider care under the authority of the Ryan White Care Act? As there is a systemic problem showing by researching nationally scope region to region Glassdoor negative outlook reviews for these social service agencies, I have some examples to place into this record -- an obvious condition of danger holding that no one is taking administrative concern, care, or response

to my calling here to bring this forward into a corrective adaptive fix.

I am left to the status of #HIVUntreatable in my very last HIV provider care and I am reluctant to find another doctor under these conditions that does not upright these conditions so that these Doctor's under this observed policy effect not being administered from the top effects the client/patient of persons living with HIV/AIDS in the United States of America.

#HIVUNTREATABLE

How Knowing The Truth About A Dark Deep Seeded Secret In The Ryan White Care Act That Has Allowed Social Services To Violate The Privacy of Clients, CyberStock Clients, Harrass Discriminate and Put Chaos Into The Lives Of Clients Has Left Me #HivUntreatable Without Doctor Care. Trying To Bring This Truth Forward, All Interfaces To Services/Care Terminated. #ConspiracyExposedTerminatesASAP #GovernmentSponsoredHate

**Use This Link Multiple Times
To Receive More Details Of
These Circumstances. A Very
Complex Involvement Matter!**

Trying to bring these facts forward, Dr. Jonathan Mermin blocks me on twitter --- the record of this block is against the ACLU's internet meme message to know my rights. When I cannot hold a discussion about this problematic observance, no one responds, this effect going on for over 10 full years. There are persons who have lost their lives in this hate scheme that is extreme.

When will they get it --- I will go to all ends -- to be the pain the their belly butts necks and asses, to get a clue that as Mark Twain quote relates: "Truth Hurts but Silence Kills" ---- the silence in these circumstances are outrageously unacceptable standard that I WILL NOT TOLERATE with my very own healthcare providers to not be able to have a frank and honest discussion about what is going on here ---- for everyone seems to know the little dark seeded secret here, and clam up to all end.

This is FEDERAL LEVEL OFFENSE of HIGHEST ORDER ---- L A V E N D E R S C A R E I I

Stage 2 this time, people actually have needlessly placed into the life circumstances of chaos to the effect then have caused collapse and failing of their HIV/AIDS disease to DEATH by HIV HATE CONSPIRACY.

The evidence is in the statics of how far we in the United States are behind the world in the 90/90/90 Targets by 2020. Las Vegas regional service area of HIV/AIDS community leadership issued the oddity of statements that they will meet this target by 2030. This conspiracy not acknowledged to be involved intentionally set into motion at the highest order down to the lowest local level will not bring a close to this affect of #KillTheGays in the community prevailing attitudes of the umbrella system that is setup under it. No matter how apparent it is ---- I write about this because no one seems to have the courage to confront this obvious need here as Pope Francis calls to our United States Nation in front of Congress in Sept 2015. It is July 1st 2019, when will this country get into gear and create a system of identification of this problem, the causality of retaliatory efforts by the social services to hold this conspiracy at all costs, even to the inclusion of Donald Trump doubling down on a policy of "Denial of Care" based on "Religious Objection" when medical care providers are corrupt in this mix finds those who will or can speak up about this conspiracy will lose their provider care an extreme cause effect to silence the masses and

conspiracy will lose their provider care --- an extreme cause effect to silence the masses --- and that will not stop me --- I will DIE FIRST from the causality of not having an HIV DOCTOR as a MARTYR than to sit down and shut the fuck up about this truth. I own @Realuphuman.net after all and the intersection where the rubber hits the road --- these tires are worn out --- flat tires ---- time to change the tires --- time to ride a different paradigm --- time to change the system by creation of new commitments as Pope Francis calls us to ---- or be damned --- I will die first trying to get the attention of American Public who are distracted to not see the truth happening ---- this is very very very very much real.

Glassdoor Research Directory : Region to Region Collective Employee Reviews [Shocking!]

This being a few examples:

Oct 29, 2018

"Stay Away"

Former Employee - Medical Case Manager in Colorado Springs, CO

Doesn't Recommend Negative Outlook CEO

I worked at Colorado Health Network full-time (More than 5 years)

Pros

This unfortunately is a area that there is nothing to promote as there are no Pros to this job.

Cons

EEOC violations, confidentiality compromises of the people they are supposed to protect, pay is below average and benefits are horrible. The CEO is below the bottom of the swamp in regards to leadership. <https://www.glassdoor.com/Reviews/Colorado-Health-Network-Reviews-E1718672.htm>

<http://coloradohealthr>

network.fuckeduphuman.net

Very caddy work environment for the most part.

Advice to Management
Get to know employees better!

Jul 23, 2017
"Low pay, oppressive management, dishonest business practices..."
 Current Employee - Anonymous Employee

Doesn't Recommend Negative Outlook

I have been working at Colorado Health Network full-time (Less than a year)

Pros:
Brand new facility, friendly coworkers, easy access to downtown, interviewers are too easy. Great benefits. Benefits twice as fortunate.

Cons:
Oppressive leadership, dishonest management, dishonest business practices. I really want to be in this place but the management could use some training. I have witnessed some dishonest business practices going on here. Toxic work environment. Pay is very low. Upper level management is very elitist, discriminating, and sometimes overly strict with staff.

Advice to Management:
Take some training courses to learn how to perform your job better. Many may have landed in their current positions due to the Peter Principle. Do some house cleaning, use who actually contributes to the successful functioning of the company and trim the fat. Just because someone is far outside of work and makes you laugh does not mean their are competent managers that need to be leading other people. Take a look in the mirror.

Show less

Case:
Management is awful. They do not trust their employees with anything - no even tissues. If you want a box of tissues you have to go upstairs and talk to them. One person stores them in his office.

They had a big "investigation" because two employees quit because of racism and discrimination within the organization - the "investigator" was "anonymous". They had a meeting with all of the staff (this was announced 24hrs prior). Beginning of discrimination. It was said that we were diverse "we have use of everything". How can an organization thrive when a top official is racist?

If you are a woman or person of color, it is very hard to move up in the org and be heard. If you are a white male, you will do well in this company.

Turnover is high!
Show less

Advice to Management:
Maybe start with a little bit of respect for clients and staff!

caddy
When a person or group of people, usually females, or sometimes in college, severely mislead, and very invasive, don't ever escape the "high school mislead" such as getting caught up in cheap (cheap) flimsy that is totally unimportant, are sometimes annoying, lead, conscious, manipulative, drink, change their morals for the acceptance of others, all like they are "the dev" and above others in status who are not in that group, etc. things of that nature.

I can't stand that group of people "caddy" attitude. They are going no where in life until they realize that they need to grow up and stop acting like "CADDY".

Innovative & dynamic. Recently discovered growth in its business model. Really good business model.

Sep 22, 2015

"Disappointment and Mendacity"
Former Employee - Not Safe to Disclose in Portland, OR

Doesn't Recommend Negative Outlook Disapproves of CEO

I worked at Cascade AIDS Project full-time (More than a year)

Pros
The community members living with HIV are some of the most dynamic and resilient people you may ever meet. Working with those who are still suffering profoundly impacts you deeply and personally. CAP has a mostly young vibe and the work is interesting due to its complex nature. Downtown location is convenient.

Cons
Management is hostile to the union represented staff. The organization only works with a narrow part of the community yet markets something different to look more comprehensive than it is. Much of upper management is threatened by change, is

Google Cache Spoken Voice
Web Archived Text Narrative

conflict avoidant to the point of dysfunction and is retaliatory when confronted. Often, people with poor skills are promoted to leadership and this creates frustration and a sense of unfairness highlighting backroom agreements meant to undermine. Morale is dreadful. In the past few years most staff have been fired, pressured to leave, or asked to work with compromised ethics. Gay, black, HIV+, and trans identified staff have been systematically marginalized. CAP treated HIV+ staff as second class citizens, ignored client request for change, and silences critics. If you go against CAP, even if justified, you will find it hard to work in the HIV community in Portland. The board is completely distant from the staff and the clients being served, and act condescending and unhelpful. You would think if 50% of the staff leave in a few months time, it might be a wake up call that there are big problems that can't be dismissed as "disgruntled" staff. Since CAP is the only game in town for HIV related needs, they have no checks and balances and no accountability when they injure the community they are claiming they serve.

Advice to Management
Stop displaying images and raising money through deception. Admit you do not serve the community at large and close your doors. CAP is not about HIV anymore, it's about retaining jobs and keeping people working at the expense of programing and directives that empower. If you want to be a LGBTQ health center then so be it, but do not pretend you are helping people living with HIV, because you are not. You are only curing on addicts and the ment ally ill. Also, an LGBTQ health group or HIV group with no gay or HIV+ leaders, or people of color managing direct services means you will be just like any other colonized public health care model that delivers incompetent care. The community does not need public health zombies, we have them already. We also do not need tokenized minorities to cover for the heteronormative, white, middle class faux professionalism that is the root of the HIV pandemic to begin with, and abundantly present in CAP management's ranks. There is a big problem when the public adores you and your clients and the community you claim to serve would rather go without than be at the mercy of a place they distrust and dislike.

There are much more. But Doctor Mermin blocks me on twitter to discuss the matter openly.

Why Does The CDC Have To Hide In Dark Shadings From The Truth Instead Of Discussion, Beyond A Response Of Denialism?

#ConspiracyExposedTerminatesASAP
http://Ryan-White-Care-Act.FuckedUpHuman.net

Dr. Jono Mermin

BLOCKING know your rights

If your elected official or government associated organization is using their social media account as a government actor, they cannot block you or restrict your access to their profile based solely on their whim or anger.

I do not know what it will take for you to respond a response of responsibility. This web presence is holding a binding. You are in a different paradigm here understanding perhaps to conclude that you would not want to remain public visible in this attention getting light for an extended duration. What appears to be a business card is sourced from your actual PHYSICIAN licence site. The source image is quickly found by google images search using your name. Further does not have a copyright affixed which means it is public domain usable. I choose to take advantage of that status. For anyone to perform an image search of your name, it might be noticed there are other images in the return results displayed to the public interest of these circumstances documented by this networking web presence. This places a binding on to this casting that you as the subject of this web presence would not just ignore this! It seems strange or a skew from any kind of normalcy that such exposure creates affixed to your name. Some might make the obvious conclusion that you are a bit of a honest irresponsible somehow to hold this web

HIVUNTREATABLE

Knowing The Truth About A Dark Deep Seeded Secret In The White Care Act That Has Allowed Social Services To Hide The Privacy of Clients, CyberStalk Clients, Harassment and Put Chaos Into The Lives Of Clients Has Been Exposed. Phone: 404-498-1829 **Fax:** --

What is a NPI Number? : The National Provider Identifier (NPI) is a unique identification number for covered health care providers. The NPI is a 10-position, intelligence-free numeric identifier (10-digit number). This means that the numbers do not carry other information about healthcare providers, such as the state in which they live or their medical specialty. The NPI must be used in lieu of legacy provider identifiers in the HIPAA standards transactions. Covered health care providers and all health plans and health care clearinghouses must use the NPIs in the administrative and financial transactions adopted under HIPAA (Health Insurance Portability and Accountability Act).

Where NPI should be used? : The NPI must be used in place of legacy provider identifiers, such as a Unique Provider Identification Number (UPIN), Online Survey Certification & Reporting (OSCAR) and National Supplier Clearinghouse (NSC) in HIPAA standard transactions. There are two categories of health care providers for NPI enumeration purposes. Entity Type 1 providers are individual providers who render health care (e.g., physicians, dentists, nurses). Sole proprietors and sole proprietorships are Entity Type 1 (Individual) providers. Organization health care providers (e.g., hospitals, home health agencies, ambulance companies) are considered Entity Type 2 (Organization) providers.

Who must obtain NPI? : All health care providers who are HIPAA-covered entities, whether they are individuals (e.g., physicians, nurses, dentists, chiropractors, physical therapists, or pharmacists) or organizations (e.g., hospitals, home health agencies, clinics, nursing homes, residential treatment centers, laboratories, ambulance companies, group practices, Health Maintenance Organizations [HMOs], suppliers of durable medical equipment, pharmacies) must obtain an NPI. The NPI will be used by HIPAA-covered entities (e.g., health plans, health care clearinghouses, and certain health care providers) to identify health care providers in HIPAA standard transactions. A covered health care provider, under HIPAA, is any health care provider who transmits health information in electronic form in connection with a transaction for which the Secretary of Health and Human Services has adopted a standard, even if the health care provider uses a business associate to do so.
